PERSONAL YOGA SESSION

In a personal yoga session, the most original form of yoga instruction, the focus is on your personal needs. The practice is individually tailored and is therefore ideal for people who are new to yoga, would like to expand their current practice, might have injuries or concerns or would rather not attend a group class.

During the consultation your instructor will clarify goals, current state of health and available times for a Yoga practice. Your instructor will then create a series of exercises, which will be carried out in the first yoga lesson under their guidance. This is a wonderful way to get a first feel for the exercises and their correct execution.

SPA ETIQUETTE We recommend that you arrive at least 10 minutes prior to your appointment to allow time to relax. All treatments will be followed by a simple tea ceremony to allow time for reflection and an opportunity to reconnect with the present, with limited distractions. For your comfort we suggest that you shower before all treatments & dress in what makes you feel most comfortable. Please advise if you have any health concerns or if you may be pregnant.

A Jala treatment is a personal journey, created and modified to your specific needs. Choose a journey from our spa menu, or allow our therapists to tailor a treatment which reflects your mood or desire. Your treatment time will be reserved especially for you. However, we understand that plans change; please provide a minimum 4 hours' notice if you wish to reschedule or cancel your treatment. Without notice, the full charge of your treatment will apply.
